

Thank you for your interest in a community presentation on youth e-cigarette prevention from CATCH My Breath! We have a few presentation format options from which to select.

Option #1 is self-serve. You can show our pre-recorded video presentation (<https://youtu.be/6Z67vfycrUg>), or download the parent and community presentation slide deck, which includes a slide-by-slide script, to be delivered by someone within the community—perhaps yourself! The slides are free to download after you fill out a short form here: <https://catchinfo.org/cmbpresentation/>

Option #2 is to have a member of the CATCH My Breath team deliver the community presentation via a live webinar. The presentation is the same slide deck from Option 1, but you get the added benefits of having a topic expert deliver the talk and facilitate Q&A. There is a minimum of 25 people in attendance with a minimal donation of \$100. To schedule a community webinar, please contact us through our general inquiry email at catchmybreath@catch.org and include "Webinar Request" in the subject line.

Option #3 is to have a member of our team travel to your community for an in-person presentation. As this can be time- and resource-intensive, there are certain requirements that must be met to make this option viable for our non-profit organization:

- The community must cover travel costs for our team member.
- The expected audience should be no fewer than 50 attendees.
- We request a donation of \$250 (or \$5 per attendee) to offset presentation prep and travel time. The donation goes toward further program dissemination efforts, including costs associated with keeping Option 1 free to the public.

To schedule an in-person presentation, please contact our program coordinator Patricia Stepaniuk at patricia@catch.org and include "In-person presentation request" in the subject line.

We look forward to working with you and your community on this important issue!
